iSmartBuild®

Auto Sprinkler Control System

Application Developer & System Integrator - Novox Limited
Cloud and Web-Platform Development - 視昀科技(深圳)有限公司 (Shiyun Tech.)

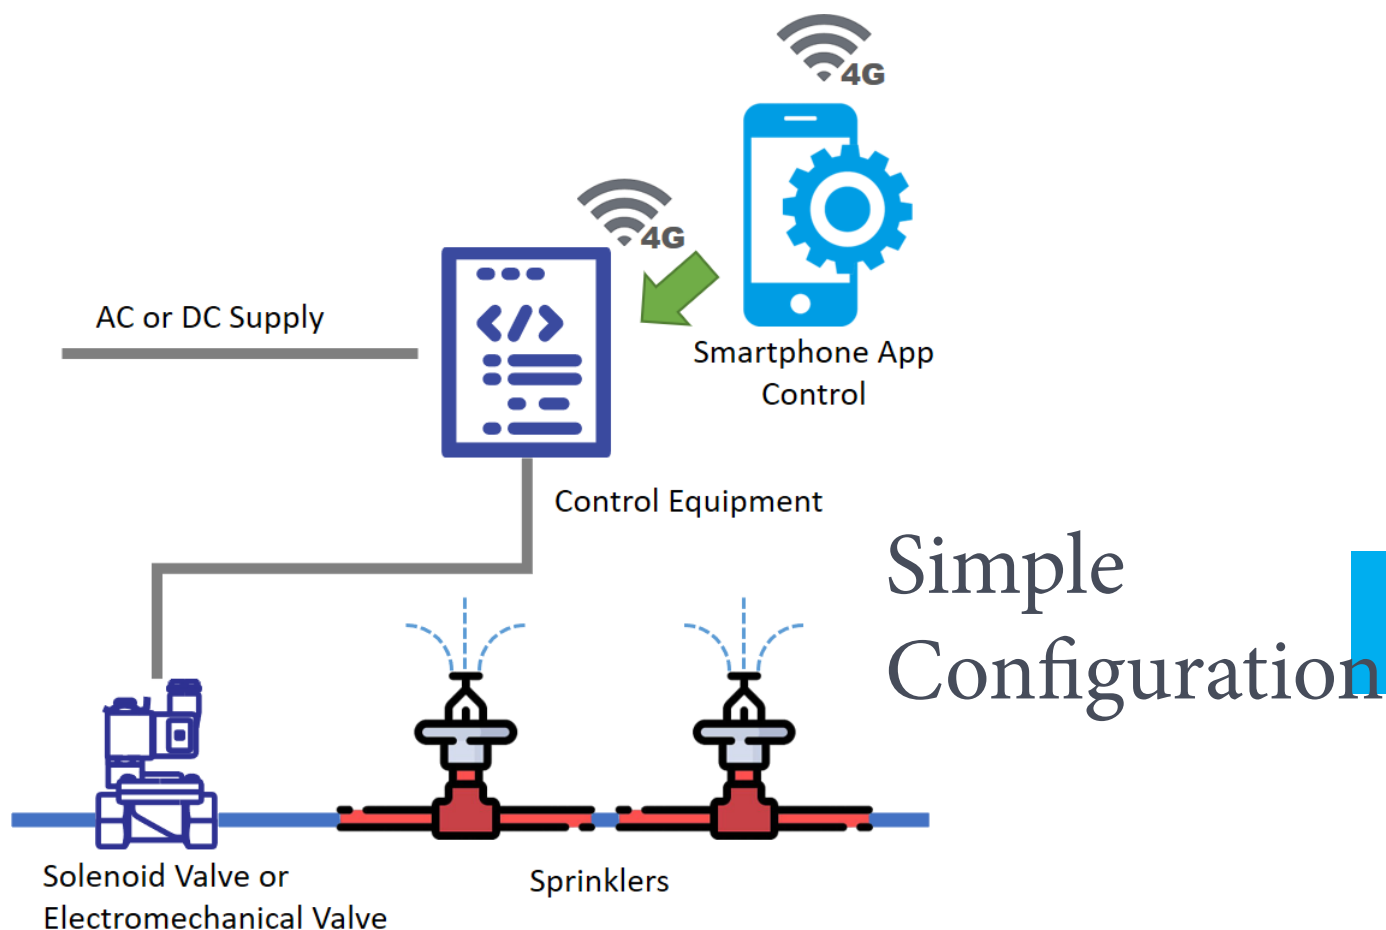

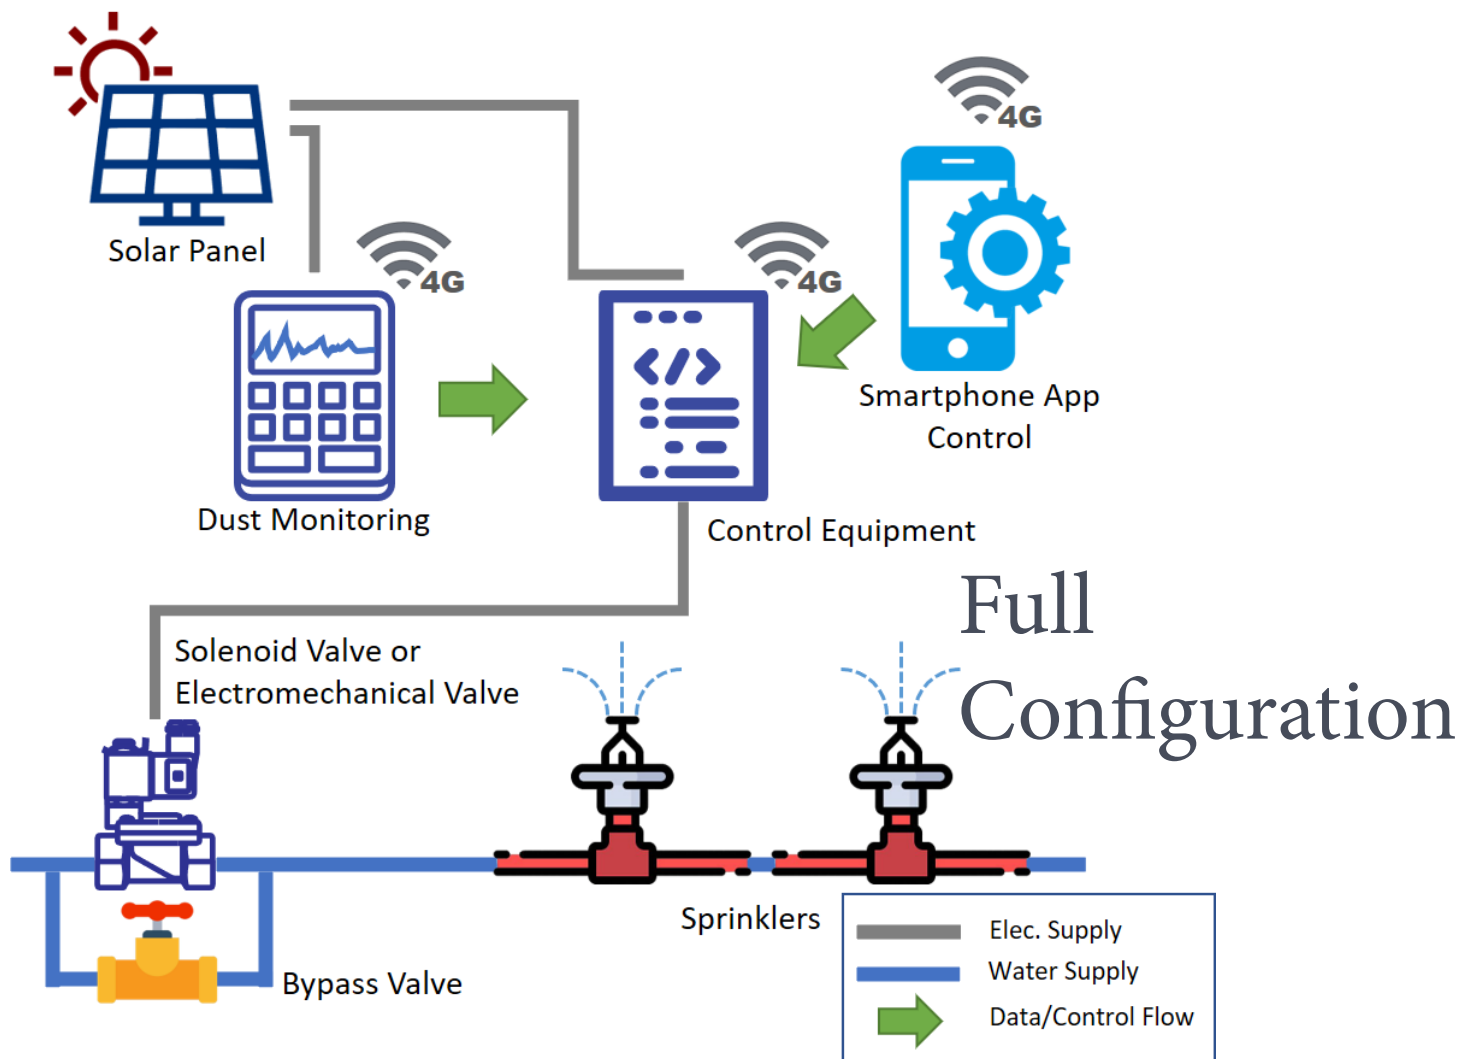

iSmartBuild® auto sprinkler control system provides a simple and efficient solution for construction site sprinkler system management.

For daily construction site sprinkler system management *iSmartBuild*® offers an extensive range of on-demand services:

- Auto on and off sprinklers with pre-set parameters (1min to 60min);
- Controlled by dust meter realtime readings (PM2.5, PM10 or TSP);
- Cloud based control system (integrated into Smart Construction Site Platform);
- Smart phone App controllable anywhere;
- Flexible configuration.

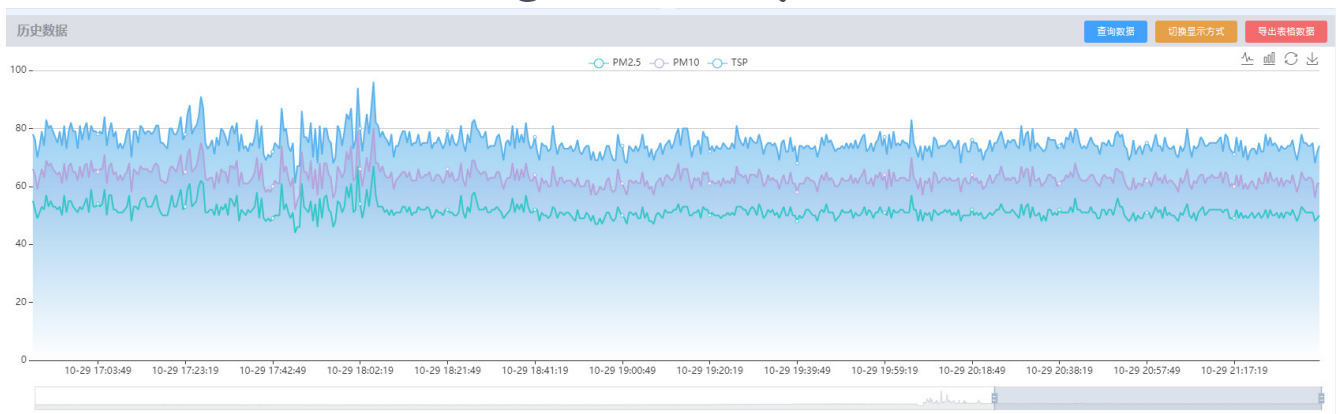

Cost Effective, Reliable and Versatile.
